AGRICULTURE STATISTICS AND OTHER INFORMATION

AGRICULTURAL STATISTICS AND OTHER INFORMATION

Internet

NASS national and state reports and data are available on the world wide web, the Internet.

National Homepage

www.nass.usda.gov

The national homepage has links to all agency products and services such as publications, graphics, historic data, State information, statistical research, Census of Agriculture, a search engine and a Published Estimates Data Base to query and download State or county historic data. There are also links to our Customer Service unit, a Kids Page, and all other federal statistics outside the National Agricultural Statistics Service.

For a monthly summary of USDA estimates, forecasts and projections of commodities, prices, trade issues, and world crop developments, see:

www.nass.usda.gov/Publications

Florida Homepage

www.nass.usda.gov/fl

The Florida web site offers much of the same information as the national homepage but in a format designed for Florida customers. The reports contain the same statistics but offer more details about agriculture in Florida. Links are also available to other sites such as the Florida Department of Agriculture, University of Florida and other NASS field offices.

Printer Reports and Computer Format

All NASS reports are still printed on paper. Census reports are only available while supplies last; contact the Florida office for a copy. NASS also offers a wide variety of data on CD-ROM with national, State, and county statistics. Most of these products are in MS Excel spreadsheet format or comma separated (CSV) files.

A listing of all paper reports and computer products can be found in the Products & Services catalog issued every December. To order a free Products & Services catalog or purchase paper reports or CD-ROMs, call:

E-Mail Subscriptions

Free e-mail subscriptions are available via automated mailing lists for National and State reports. You can subscribe to individual reports and they will be sent directly to your e-mail address soon after the official release time.

National, State and News Reports via E-mail

National reports contain statistics from all states and are the most timely source of data.

State reports are distributed after national reports but they usually contain more local information. For more information, see:
